

FIRESTOP ENGINEERING JUDGEMENTS MADE SIMPLE

Hilti's new digital Engineering Judgement process for Firestop applications is a streamlined and self-service way to submit, track, and store your EJ requests, with the same quality you have come to expect from us.

constructionplatform.hilti.com

IMPROVED WORKFLOW

Our simple and efficient process makes EJs easier than ever. Have a unique firestop application? Don't let that slow you down. Fill out the new EJ request form, add a photo and submit.

DIGITAL AGILITY

Digital submission enables a more streamlined, efficient workflow and communication structure with Hilti's firestop experts. You can also create an offline request and submit later.

CONVENIENT NOTIFICATIONS

Always know where your EJ request stands with convenient email notifications when the EJ status changes, including receipt confirmation, completion, or when more information is needed.

CENTRAL STORAGE

Stay productive and easily find current and past EJs and requests for organized and accessible documentation. Completed EJs may be saved to the cloud and organized by customer projects.

ANYTIME CONNECTIVITY

Get what you need, when you need it. Anytime, anywhere convenience with direct and accessible access to the information that matters most.

DIRECT ACCESS TO FIRE PROTECTION ENGINEERS

Whether submitting a new EJ request, a revision, or a question, customers can enjoy direct and timely access to Fire Protection Engineers.

SIMPLE, EFFICIENT PROCESS

With the ease of digital submission and online status tracking/notifications, customers can now manage their own EJs and submit directly to the Hilti Fire Protection Engineer team.
